Contents

Preface IX

Section 1 Thyroid Hormone Physiology 1

Chapter 1 “Quo Vadis?” Deciphering the Code of Nongenomic Action of Thyroid Hormones in Mature Mammalian Brain 3
Pradip K. Sarkar

Chapter 2 Ecological Genetics of Thyroid Hormone Physiology in Humans and Wild Animals 37
Asano Ishikawa and Jun Kitano

Chapter 3 Paracrine Regulation of Thyroid-Hormone Synthesis by C Cells 51
José María Fernández-Santos, Jesús Morillo-Bernal, Rocio Garcia-Marín, José Carmelo Utrilla and Inés Martín-Lacave

Chapter 4 Thyroid Hormone Effects on Sensory Perception, Mental Speed, Neuronal Excitability and Ion Channel Regulation 85
Irmgard D. Dietzel, Sivaraj Mohanasundaram, Vanessa Niederkinkhaus, Gerd Hoffmann, Jens W. Meyer, Christoph Reiners, Christiana Blasl and Katharina Bohr

Section 2 Developmental Physiology 123

Chapter 5 Maternal-Fetal Thyroid Interactions 125
R.G. Ahmed

Section 3 Thyroid Hormone Excess 157

Chapter 6 Thyroid Hormone Excess: Graves’ Disease 159
N.K. Agrawal, Ved Prakash and Manuj Sharma
